

KISKUN Bibliography

KISKUN Bibliography is an electronic database of KISKUN LTER scientific literature. It aims to collect publications of natural (synbiological and relevant environmental) and socio-economical scientific research that have been carried out in the Kiskunság region. It contains papers published in periodicals or conference proceedings, books, book chapters, conference abstracts (since 2004) and PhD dissertations written in English or in Hungarian. In addition to bibliographical citations it includes keywords and English abstracts of periodicals (if available). Most papers are also collected and stored as reprints or photocopies in the library of the Institute of Ecology and Botany, HAS, Vácrátót.

KISKUN database is created under ProCite for Windows, version 4.0, and it is continuously amplified (now it contains 650 records). It is available from the <http://www.lter.hu/LTER/KISKUN/kiskun.html> website.

Contact: Edit Kovács-Láng or Andrea Mojzes (e-mail: lange@botanika.hu; mojzes@botanika.hu).

Hungarian partners in the KISKUN LTER programme

Institute of Ecology and Botany, Hungarian Academy of Sciences (co-ordinator),
Department of Plant Taxonomy and Ecology, ELTE University, Budapest,
Department of Ethology, ELTE University, Budapest,
Department of Ecology, Szeged University,
Department of Environmental Economics, Institute of Environmental and Landscape
Management, St. István University,
Plant Protection Institute, Hungarian Academy of Sciences,
Research Institute of Soil Science and Agrochemistry, Hungarian Academy of Sciences,
Kiskunság National Park, Kecskemét.

Major funding organisations and grants supporting KISKUN LTER research

Hungarian Scientific Research Fund (OTKA): T 021166, T 032630, T 034790, T 038028,
M 27557, M 41454;

National Science Foundation & Hungarian Academy of Sciences Joint Project No 89;
EU FP5 EVK2-2000-00094 VULCAN Project;

EC Project (DEGREE – Diversity Effects in Grassland Ecosystems of Europe, No.
ENV4-CT95-0029);

National Research and Development Plan: NKFP-3B/0050-2002, NKFP 3B/0008/2002;
Ministry of Environmental Protection and Water Management;

Kiskunsági National Park & Institute of Ecology and Botany, HAS: Alföld Project;
KAC No. K0439222001.
